RGB LED Matrix Panel - 32x64

**DESCRIPTION**

- 2048 RGB LEDs
- 1/16 Scan Rate
- IDC Connector for Daisy Chaining
- 5V Supply Voltage

**Features**

**Documents**

**Tags**

- 32X64
- COMPONENT
- LED
- MATRIX
- RGB

**RGB Panel Hookup Guide**

DECEMBER 12, 2013

Make bright, colorful displays using the 32x16, 32x32, and 32x64 RGB LED matrix panels. This hookup guide shows how to hook up these panels and control them with an Arduino.
Panel works well. Hookup was easy and examples ran without a problem once the needed libraries were installed. Online tutorial was helpful.
