Photo: Small universal board (lead-free board, single-sided / 47 x 72 x 1.2t) (ICB-86G-PbF): Appearance of main unit

### Easy-to-use standard small size

Universal Board | Small universal board | RoHS Compliance | Glass Composite (CEM-3) | One side | 2.54mm

Prices have been revised from July 1, 2023.

This is a single-sided universal board made of glass composite material. There is a power line and a connection pattern in the center of the length. The component side is printed with white silk screen printing, making it easy to see which patterns are connected.
