Compact Photoelectric Sensor with Built-in Amplifier

E3Z-F

A Visible Spot That Simplifies the Usage of Photoelectric Sensors

• E3Z-F is added to the E3Z Series of Photoelectric Sensors that boasts annual worldwide sales of 1.5 million units.
• Many different sensing distances
  Diffuse-reflective: 100 mm, 300 mm, 500 mm, 1 m
  Through-beam: 20 m
  Retro-reflective: 4 m
• Models with infrared LEDs are also available.

For the most recent information on models that have been certified for safety standards, refer to your OMRON website.

Features

Visible spot for easy installation

Many different sensing distances are available, so you can select the best model for your application distance.

Application

Materials handling: detect passing cardboard boxes
Molding machines: detect falling molded objects

Refer to the Safety Precautions on page 9.
## E3Z-F Ordering Information

*1. Through-beam Sensors are normally sold in sets that include both the Emitter and Receiver. An order for the Emitter or Receiver alone cannot be accepted.

*2. The Reflector is sold separately. Select the Reflector model most suited to the application.

*3. Values in parentheses indicate the minimum required distance between the Sensor and Reflector.
Accessories (Sold Separately)

Reflector (Required for Retro-reflective Sensors) A Reflector is not provided with the Sensor. It must be ordered separately. [Refer to Dimensions on page 11.]

- Values in parentheses indicates the minimum required distance between the Sensor and Reflector.

- 100 mm (white paper: 300 × 300 mm)
- 300 mm (white paper: 300 × 300 mm)
- 500 mm (white paper: 300 × 300 mm)
- 1 m (white paper: 300 × 300 mm)

#### Spot diameter (reference value)

- 40 × 45 mm (at sensing distance of 100 mm)
- 40 × 50 mm (at sensing distance of 300 mm)
- 45 × 50 mm (at sensing distance of 500 mm)
- 120 × 150 mm (at sensing distance of 1 m)

#### Standard sensing object

- Opaque: 7 mm dia. min.
- Opaque: 75 mm dia. min.

### Sensing method

- Through-beam
- Retro-reflective with MSR function
- Diffuse-reflective

#### Sensing object

- Opaque: 7 mm dia. min.
- Opaque: 75 mm dia. min.

#### Differential travel

- 20% max. of sensing distance

#### Directional angle

- 2° min.

#### Light source (wavelength)

- Red LED (624 nm)

#### Power supply voltage

- 10 to 30 VDC (including voltage ripple of 10% (p-p) max.)

#### Current consumption

- 40 mA max. (Emitter: 25 mA max., Receiver: 15 mA max.)
- 25 mA max.

#### Control output

- Load power supply voltage: 30 VDC max., Load current: 100 mA max.
- (Residual voltage: 3 V max.)
- Open collector output (NPN (negative common)/PNP (positive common) depending on model)
- Light-ON/Dark-ON cable connection selectable

#### Indicators

- Operation indicator (orange)
- Stability indicator (green)
- Trough-beam Emitter has only power indicator (green)

#### Protection circuits

- Power supply reverse polarity protection, Output short-circuit protection, and Output reverse polarity protection

#### Response time

- Operate or reset: 0.5 ms max.

#### Sensitivity adjustment

- One-turn adjuster

#### Ambient illumination (Receiver side)

- Incandescent lamp: 3,000 lx max.
- Sunlight: 10,000 lx max.

#### Ambient temperature range

- Operating: −25 to 55°C, Storage: −40°C to 70°C (with no icing or condensation)

#### Ambient humidity range

- Operating: 35% to 85%, Storage: 35% to 95% (with no condensation)

#### Insulation resistance

- 20 MΩ min. (at 500 VDC)

#### Dielectric strength

- 1,000 VAC, at 50/60 Hz for 1 min

#### Vibration resistance (destruction)

- 10 to 55 Hz with a 1.5 mm double amplitude for 2 hours each in X, Y, and Z directions

#### Shock resistance (destruction)

- 500 m/s² for 3 times each in X, Y, and Z directions

#### Degree of protection

- *2 IEC IP67, DIN40050-9 standard IP69K

#### Connecting method

- Pre-wired (standard length: 2 m), Connector (M12, 4-Pin)

#### Weight (packed state/Sensor only)

- Pre-wired: Approx. 120 g/
  - Approx. 105 g
- Connector: Approx. 35 g/
  - Approx. 20 g

#### Materials

- Case: ABS
- Lens: Methacrylic resin (PMMA)
- Display: Methacrylic resin (PMMA)
- Sensitivity adjuster: Polyacetal (POM)
- Cable: *3 Vinyl chloride (PVC)
- Nuts: ABS

#### Accessories

- Nuts (2 pcs), Instruction manual

Safety Precautions

To ensure safe operation, be sure to read and follow the Instruction Manual provided with the sensor.

Meanings of Alert symbols

| WARNING | Indicates a potentially hazardous situation which, if not avoided, will result in minor or moderate injury, or may result in serious injury or death. Additionally there may be significant property damage. |
| CAUTION | Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury or in property damage. |

Precautions for Safe Use
Supplementary comments on what to do or avoid doing, to use the product safety.

Precautions for Correct Use
Supplementary comments on what to do or avoid doing, to prevent a failure to operate, or undesirable effect on product performance.

WARNING
This product is not designed or rated for ensuring safety of persons either directly or indirectly. Do not use it for such purposes.

CAUTION
Explosion, fire, or product malfunction may occur. Never use the product with an AC power supply. Do not use the product with voltage in excess of the rated voltage. Do not use the product with incorrect wiring.

Precautions for Safe Use
Be sure to follow the safety precautions below for added safety.

1. Do not use the product in atmospheres or environments that exceed product ratings.
2. Do not use the product in an environment where it may be exposed to inflammable or explosive gas.
3. Do not use the product in an environment where it may be exposed to oil or chemicals.
4. Do not use the product in water, in rain, or outdoors.
5. Do not use the product in locations subject to condensation due to high humidity.
6. Do not use the product in any other environment that exceeds the ratings.
7. Do not use the product in a location subject to direct sunlight.
8. Do not use the product in a location subject to direct vibration or shock.
9. Do not use organic solvents (such as thinners or alcohol).
10. Do not attempt to disassemble, repair, or modify the product.
11. Dispose of the product as industrial waste.
12. The E3Z-F devices shall be used with Class2 power supply in the United States. The ampere rating of the current protection shall be 1A for 26AWG, 2A for 24AWG, 3A for 22AWG, 5A for 20AWG.

Precautions for Correct Use

1. Laying Sensor wiring in the same conduit or duct as high-voltage wires or power lines may result in malfunction or damage due to conduit or use shielded cable. Separate the Sensor wiring or use a shielded cable.
2. Do not pull on the cable with excessive force.
3. If a commercial switching regulator is used, ground the FG (frame ground) terminal.
4. The sensor will be available 100 ms after the power supply is tuned ON. Start to use the sensor 100 ms or more after turning ON the power supply. If the load and the sensor are connected to separate power supplies, be sure to turn ON the sensor first.
5. Output pulses may be generated even when the power supply is OFF. Therefore, it is recommended to first turn OFF the power supply for the load or the load line.
6. Do not tighten nuts or screws with excessive force. To secure the Sensor with nuts, use the nuts that are included with the Sensor, and tighten the nuts to a torque of 0.3 to 0.4 N•m (2.0 N•m max.). To secure the Sensor with M3 screws, tighten the screws to a torque of 0.6 N•m max.

**E3Z**

The Standard for Photoelectric Sensors with a Secure Track Record of 1.5 Million Sold Yearly.

- Long sensing distance of 30 m for Through-beam Models, 4 m for Retro-reflective Models, and 1 m for Diffuse-reflective Models.
- Mechanical axis and optical axis offset of less than ±2.5° simplifies optical axis adjustment.
- High stability with unique algorithm that prevents interference of external light.

Compact Laser Photoelectric Sensor with Built-in Amplifier

**E3Z-LT/LR/LL**

Compact and Reliable Laser Photoelectric Sensor

- Safety and reliability with laser class 1 (JIS and IEC).
- Product lineup includes models with distance setting without influence of color.
- Maximum ambient operating temperature of 55°C and waterproof construction (IP67) in E3Z class.

Grooved-type Photoelectric Sensor with Built-in Amplifier

**E3Z-G**

Photoelectric Sensor with Grooved Design and Easy Settings

- Grooved-type Sensor with groove width of 25 mm.
- Models are available with one or two light axes.
- Models are available with M8 pre-wired connectors.
Compact Photoelectric Sensor with Stainless Steel Housing

**E3ZM**

Stainless Steel Housing Ideal for Food Industry (SUS316L)

- Strong resistance against detergents, disinfectants, and jet liquid flow.
- Product lineup includes BGS reflective models and through-beam models with built-in slits.
- Certified by Ecolab Europe.

Color Mark Detection Compact Photoelectric Sensor

**E3ZM-V**

Industry’s Smallest Color Mark Sensor

- Excellent space savings. (Reduced by 90% compared with previous OMRON models.)
- Improved color-difference discrimination with white LED and RGB signal processing.
- Equipped with two types of teaching: (2-point teaching and automatic teaching.)

Transparent Object (PET Bottle) Detection Compact Photoelectric Sensor

**E3ZM-B**

Excellent PET Bottle Detection

- New detection method that is independent of bottle shape, position, and contents.
- Automatic compensation against effects of contamination and temperature (except E3ZM-B-T).
- Product lineup includes models with adjuster (E3ZM-B-T).
- Detects transparent objects made by PET, resin, or glass.

Oil-resistant, Robust, Compact Photoelectric Sensor

**E3ZM-C**

Photoelectric Sensor for the Automotive and Machine Tool Industries

- Oil-resistant, rugged body made of stainless steel.
- Spot visibility improved to as far as 1 m away.
- Product lineup includes through-beam models with orange spot.
- Product lineup includes M12 Smartclick pre-wired connector models.
Terms and Conditions of Sale

1. Offer; Acceptance. These terms and conditions (these "Terms") are deemed part of any written, oral, or implied order, purchase, purchase order, contract, acknowledgment, catalog, brochures and other documents, whether electronic or in written form, by which Buyer orders or directs the sale of products sold by Omron Companies ("Omron") or Omron ("Omron") objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms. Omron shall not be responsible for the accuracy, timeliness or correctness of any information presented by Omron Companies. These Terms shall govern the sale of Omron's products. Buyer acknowledges that Omron's sole obligation hereunder shall be Omron's election, to (i) replace (in the form originally shipped with Buyer) with Buyer responsible for labor charges for repair or replacement thereof; or (ii) non-complying Product. Property, volume,_Project, Purchase Order. Products sold by Omron are not for use in reproduction, display or duplication of the Products. Buyer may not assign its rights hereunder to confirm actual specifications of purchased Product. Use in consumer products or any use in significant quantities. However, some specifications of the Product may be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed herein, "including ... usefulness for the manufacture, production, sale, delivery, importation, consumption, use or disposal of the Products sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to Buyer). Buyer shall in any event remain liable for all amounts, including amounts payable hereunder, whether or not then due, which are owing to Omron. Buyer shall in any event remain liable for all unpaid accounts.

9. Cancellation. Orders are subject to rescheduling or cancellation unless Buyer indemnifies Omron against all related costs or expenses. Use in combination with the end product, machine, system, or other application which are not approved by Omron. Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible or liable for any delays in delivery or non-delivery of the Products occurring before delivery to the carrier must be presented in writing, relating to the sale of products or services (collectively, the "Products") covered by this Contract. Indemnities. Buyer shall indemnify and hold harmless Omron Companies and their employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron, its directors, officers, employees, and agents from and against any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of any third party. Buyer may not assign its rights hereunder without Omron's written consent. (d) Law. These Terms are governed by the law of the jurisdiction of the home office of the Omron company from which Buyer is purchasing the Product (without regard to any conflict of laws principles). The maximum legal rate, whichever is less, on any balance not paid within the maximum legal rate. All taxes, duties and other governmental charges (other than general sales, excise, use, turnover and license taxes) shall be charged to Buyer. 17. Export Controls. Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (ii) sale of products to "forbidden" or other proscribed persons; and (ii) disclosure to non-citizens of certain technology or information. 18. Miscellaneous (a) Waiver. No failure or delay by Omron in exercising any right and no course of dealing between buyer and Omron shall operate as a waiver of rights by Omron. (b) Assignment. Buyer may not assign its rights hereunder without Omron's written consent. (c) Cure. Buyer's rights and remedies under these Terms or in respect of this invoice. Buyer's rights and remedies under these Terms or in respect of this invoice. Any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) Severability. If any part of these Terms shall be found to be invalid, illegal or unenforceable, such invalidity, illegality or unenforceability shall not affect any other part hereof. (g) Definitions. As used herein, "including" means including without limitation, as set forth in a definition of " Ведь" (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof. The maximum legal rate, whichever is less, on any balance not paid within the maximum legal rate. Omron will not drop ship through an "indebtedness" disclosure to any third party.

b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer; c. All sales and shipments of Products shall be FOB shipping point (unless otherwise stated in writing by Omron), at which point title and risk of loss shall pass from Omron to Buyer; provided that Omron shall retain a security interest in the Products until the full purchase price is paid; d. Delivery and shipping dates are estimates only; and e. Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions. A waiver by Omron against any claim involving title or damage to the Products occurring before delivery to the carrier must be presented in writing, relating to the sale of products or services (collectively, the "Products") covered by this Contract. (b) Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer; (c) The carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer; (d) Delivery and shipping dates are estimates only; and (e) Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions. "Omron makes no warranty or representation, express or implied, about non-infringement, merchantability, fitness for a particular purpose or any other warranty, express or implied. Buyer may not assign its rights hereunder without Omron's written consent. (c) Cure. Buyer's rights and remedies under these Terms or in respect of this invoice. Buyer's rights and remedies under these Terms or in respect of this invoice. Any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) Severability. If any part of these Terms shall be found to be invalid, illegal or unenforceable, such invalidity, illegality or unenforceability shall not affect any other part hereof. (g) Definitions. As used herein, "including" means including without limitation, as set forth in a definition of " Ведь" (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof.
