Qwiic Cable - 100mm

PRT-14427

DESCRIPTION FEATURES DOCUMENTS

This is a 100mm long 4-conductor cable with 1mm JST termination. It's designed to connect Qwiic enabled components together but can be used for other applications as well.

Each Qwiic Cable's wires have been color coded to Red, Black, Blue, and Yellow.

The SparkFun Qwiic connect system is an ecosystem of I^2C sensors, actuators, shields, and cables that make prototyping faster and less prone to error. All Qwiic enabled boards use a common 1mm pitch, 4-pin JST connector. This reduces the amount of required PCB space, and polarized connections mean you can't hook it up wrong.

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
