

HP xw4300 workstation Memory

System Info

- Total Slots: 4
- Min. Memory: 512MB (2 x 256MB)
- Max. Memory: 8GB (4 x 2GB)

Notes

For best performance add DIMMs in matched pairs, and the total amount and type of memory installed in Channel A (slots 1 & 3) and Channel B (slots 2 & 4) should be the same. Mixing ECC and Non-ECC memory is not supported. Mixing speeds will result in the memory running at the speed of the slowest DIMM.

Compatible Parts

| | | |
|---|---|---------------------------------------|
| 1GB (1 slot occupied) HP Product Number: PV941A Dataram Product: DRHXW4306E/1GB (1 x 1GB DIMMs) | DDR2-667, PC2-5300, Unbuffered, ECC, 1.8V, 240-pin, 2 Ranks | QTY <input type="text" value="0"/> |
| 2GB (1 slot occupied) HP Product Number: PV942A Dataram Product: DRHXW4306E/2GB (1 x 2GB DIMMs) | DDR2-667, PC2-5300, Unbuffered, ECC, 1.8V, 240-pin, 2 Ranks | QTY <input type="text" value="0"/> |
