H-Bridge Motor Driver 1A

**DESCRIPTION**

Faster, cheaper, smaller, better, right? The SN754410 Quad Half H-Bridge is just that. Capable of driving high voltage motors using TTL 5V logic levels, the SN754410 can drive 4.5V up to 36V at 1A continuous output current! Please see datasheet for more information. This is a pin to pin compatible replacement for the L293D.

Datasheets: SN754410

These little guys work great!

A perfect solution for driving small motors. Works great for robotics applications. I would recommend these motor drivers!
