Inductor Data Sheet

LQW18ANR10J8Z#  "#" indicates a package specification code.

In operating temperatures exceeding +85°C, derating of current is necessary for this series. Please apply the derating curve shown in the chart according to the operating temperature. Please consider “Notice (Rating).” When rated current is applied to the products, the temperature rise caused by self-generated heat shall be limited to 40°C max.
