

Android System Card (Pepper) (Developer Version)

Product datasheet

USD30006

USD30.00

Build your Pepper-driven project on the world's most popular mobile OS with Android. This Class 10 microSD card has a capacity of 8GB pre-loaded with Android software.

Please note: Current Android builds for Gumstix Pepper are considered developer's builds. Customers looking for a production build should consider a Yocto Project image.

What's included

1 × Lexar 8GB Class10
