### Features:
- DC/DC step-up converter
- Constant current output: 350mA to 1050mA
- Wide output LED string voltage up to 126VDC
- High efficiency up to 95%
- Built-in EMI filter, comply with EN55015 without additional input filter and capacitors
- PWM + analog dimming and remote ON/OFF control
  - ([Blank] type or W type)
  - DALI dimming ([Blank] DA type or WDA type)
- Protection: Short circuit / Over voltage / Under voltage
- Cooling by free air convection
- Fully encapsulated
- 3 years warranty

### Specification

#### LDH-45-SPEC   2019-01-18

**LDH-45 series**

DC-DC Step-Up Constant Current LED driver

**Note.2**

- Downloaded from Arrow.com.

---

**LDH-45□□□□□□□□**

**□□□□□□□□**

- **A or B:** A: 9~18VDC input range, B: 18~32VDC input range
- **□□□□□□□□**
  - (Blank): PIN style, PWM+analog dimming
  - W: Wire style, PWM+analog dimming
  - (Blank): PIN style, DALI dimming
  - WDA: Wire style, DALI dimming

---

**Note.3**

- Please refer to "Derating Curve"

---

**ENVIRONMENT**

- **WORKING TEMP.** -40 ~ +70°C (Refer to "Derating Curve")
- **WORKING HUMIDITY** 20 ~ 90% RH non-condensing
- **STORAGE TEMP.** -40 ~ +85°C, 10 ~ 95% RH
- **TEMP. COEFFICIENT** ±0.3%/°C (0 ~ 50°C)
- **VIBRATION** 10 ~ 500Hz, 2G 10min./1cycle, period for 60min. each along X, Y, Z axes

---

**SAFETY & EMC**

- **SAFETY STANDARDS** EAC TP TC 004 approved
- **EMC EMISSION** Compliance to EN55015: EAC TP TC 020
- **EMC IMMUNITY** Compliance to EN61547: EAC TP TC 020
- **MTBF** 1179.3Khrs min. MIL-HDBK-217F (25°C)

---

**PACKING**

- 75.53"x22.7mm (L"W"H)
- 136g, 100pcs/14.8Kg/0.83CUFT ([Blank] type or [Blank] DA type), 1.04CUFT (W type or WDA type)

---

**NOTE**

- All parameters are specified at normal input (12VDC, 24VDC), rated load, 25°C 70% RH ambient.
- 1. (Blank) type and W type output voltage must step up by 3 Volts from input DC voltage.
- (Blank) [DA] type and WDA type output voltage must step up by 12 Volts from input DC voltage.
- 3. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf parallel capacitor.
Mechanical Specification

LDH (PIN Style):

- PIN No.: 1, 2, 3, 4, 5, 6, 7
- Bottom View: 8mm ±0.1mm
- Side View: 100mm ±0.1mm

LDH (Wire Style):

- PIN No.: 1, 2, 3, 4, 5
- Bottom View: 8mm ±0.1mm
- Side View: 100mm ±0.1mm

Unit: mm [inch]

Derating Curve

- Type: A, B

Static Characteristics

- Type: A, B
Standard Application

- **Operation without dimming:**
  - \( I_o \) operates at rated current without dimming function when the pins of analog DIM and PWM DIM keep open

- **PWM Dimming Control (non DA type):**
  - \( I_o \) adjustment by PWM Signal

- **Analog Dimming Control (non DA type):**
  - \( I_o \) adjustment by DC voltage

- **DALI Dimming Control (DA type only):**
  - \( I_o \) adjustment by DALI signal

Note: DALI dimming curve refer to 10KHz curve

- 12VDC input & 24VDC input, full load
- DALI protocol including 16 groups and 64 addresses.
- Min. dimming level is about 8% of output.

Downloaded from Arrow.com.
Application Notes:
1. The positive and negative input terminals must be connected correctly and negative voltage can not be input to avoid damage to the power supply.
2. Due to the large input current, please pay attention to the voltage drop of the wiring, to ensure the power supply to work properly.
3. At dim off, LDH output voltage will drop to the same level as input voltage. To get luminaires complete dark, please make luminaires are light off when they are driving by the input voltage.
