KTQM67/mITX

KTQM67/MITX EMBEDDED & LONGTERM AVAILABLE MINI ITX BOARD WITH INTEL® QM67 CHIPSET SPECIFICATIONS

- ▶ 2nd Generation Intel® i7,-i5,-i3 2Core and 4Core CPUs & Intel® QM67 Chipset
- ▶ Long term available embedded Mini ITX-Motherboard (up to 7 years after release)
- ▶ High graphics performance incl. 2 x Display Port, LVDS & DVI
- ▶ 6 x SATA (incl. 2 x SATA III), 14 x USB 2.0, 3 x Intel® GB LAN incl. Intel® AMT 7.0 support
- ▶ mSATA interface highspeed compact SSD storage
- ▶ ATX and single 12V power supply
- ▶ Gen 2.0 PCIe x16 & PCIe x1
- ▶ Unique multipurpose KT Feature Connector

KTQM67/mITX embedded Mini ITX board offers latest Intel® i7,-i5,-i3 2Core and 4Core CPU technology and longterm availability

Based on the Mobile Intel® QM67 chipset, the Kontron KTQM67/mITX embedded motherboard with long-term availability offer an ideal performance-per-watt ratio and the very latest interface technology, like gen 2.0 PCI Express x16, without neglecting embedded designers' needs: They still carry, for example, 6 x SATA (incl. 2 x SATA III) interfaces alongside the 14 USB 2.0 interfaces. The state of the art graphics performance is supported by 2 x Display Port, LVDS/eDP & DVI interfaces. An unique multipurpose KT Feature Connector supports up to 160 GPIO's. As always the KT embedded motherboards offer more PCB layers than conventional motherboards designed for the consumer market, in order to achieve excellent signal qualities and optimize electromagnetic compatibility. The on board mSATA interface allows to use space-saving highspeed compact SSD storage devices.

Kontron's newest embedded Mini-ITX-board also supports Intel Active Management Technology (Intel AMT 7.0) for remote management and easy maintenance resulting in higher system availability and lower total co

ABOUT KONTRON

Kontron is a global leader in embedded computing technology (ECT). As a part of technology group S&T, Kontron offers a combined portfolio of secure hardware, middleware and services for Internet of Things (IoT) and Industry 4.0 applications. With its standard products and tailor-made solutions based on highly reliable state-of-the-art embedded technologies, Kontron provides secure and innovative applications for a variety of industries. As a result, customers benefit from accelerated time-to-market, reduced total cost of ownership, product longevity and the best fully integrated applications overall.

Kontron is a listed company. Its shares are traded in the Prime Standard segment of the Frankfurt Stock Exchange and on other exchanges under the symbol "KBC".
