

AVC 2017 Tee - Small

SWG-14511

DESCRIPTION FEATURES

Were you not able to make it to the Autonomous Vehicle Competition (AVC) at Maker Faire® Denver this year? Or maybe you made it and just weren't able to get to our merch tent? Good news! For everyone who attended or wanted to attend our AVC and Battle Bots competitions, you can still get a shirt that says you were (or wanted to be) there! This small, lightweight red heather T-shirt proudly displays "Auto," the robotic warlord of the AVC track. On the back of this fitted tee is our SparkFun emblem and our many sponsors.

These shirts do run small, so you may need to purchase a size larger to fit. We also offer this shirt in [medium](#), [large](#), [XL](#) and [XXL](#).

Note: This shirt is available for a limited time only. Once we sell out, we will not be ordering more; this shirt will be gone forever. Get it while you can!

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
