Ratings & Reviews

NetworkAIR AFX Features & Benefits

Economy	
Dedicated dehumidification	Boosts system efficiency by adding latent capacity without overcooling or increasing the requirement for reheat (N/A chilled water systems).
Protection	
Air filtration	Removes dirt and other particulates from the intake air for cleaner supply air.
Manageability	
Microprocessor controller	Provides proactive control and real-time monitoring via a four line, eighty character, alphanumeric display.
Serviceability	
Front service access	The system has full service, front access for routine servicing of components. Front access also narrows the footprint of the system making it possible for units to be placed side by side.
Availability	
Steam humidifier	Humidity is managed through a self-contained steam canister humidifier for maximum efficiency and ease of maintenance. The pure-steam canister maintains consistent capacity output, and requires very little scheduled maintenance.
Scroll compressors	Utilize few moving parts for increased reliability and life expectancy.
Product Distribution	

Antigua and Barbuda , Anguilla , Netherlands Antilles , Argentina , Aruba , Barbados , Bermuda , Bolivia , Brazil , Belize , Canada , Chile , Colombia , Costa Rica , Cuba , Dominican Republic , Ecuador , Falkland Islands , Guatemala , Guyana , Honduras , Jamaica , Mexico , Nicaragua , Panama , Peru , Puerto Rico , Paraguay , El Salvador , Trinidad and Tobago , United States , Uruguay , Venezuela , U.S. Virgin Islands
