Product information "Jack connectors"

All of FRIWO's standard devices are delivered with a 1.83-meter round cable and its tried-and-tested, comprehensive secondary adapter system. A range of easy-to-mount coaxial and jack connectors makes the system extremely flexible for use in a wide range of applications. The required polarity can be achieved by reversing the secondary connector. Custom cables can also be installed. Our experts are always happy to help you choose what you need.

Additional information

- **Outdoor Diameter:** 3,5
- **Shape:** Straight
