WSTRTUP-UF-33 Features

Start-up Service 5x8 for (1) DX 50-68 kW

7x24 Upgrade option	If you are like most businesses, you want your systems up and running during your busiest hours. In order to accommodate your busy schedule, APC offers an option to schedule services off hours. We will work with you to find a time when servicing your system is least likely to impact your productivity, saving your business time and money.
Functional verification	During each Preventive Maintenance visit, our Certified Field Service Engineers will run tests to verify your system is functioning correctly in all operational modes, stopping problems before they start.
Installation verification	Once the equipment is assembled, an APC Certified Field Service Engineer will verify all connections within the system have been made according to factory specification, and that it is functioning correctly in all modes of operation, ensuring optimal performance and extending the life of the product.
Labor and travel expenses included	Travel and labor expenses are included in most service contracts. Please see the statement of work for the service specifics.
Logistics coordination	APC will coordinate the logistics of your installation, from hardware delivery to scheduling installation technicians, ensuring a smooth installation process from start to finish.
Written summary report	APC project managers will provide you with written reports to keep you informed of the progress of your project.

Installation Services Features & Benefits

Convenience

Experienced APC Certified Field Service Engineer	Our factory trained Field Service Engineers are rigorously trained and tested on how to efficiently service our products, as well as on safety practices and electrical codes, offering our customers the highest level of service available in the industry today.
7x24 Upgrade option	If you are like most businesses, you want your systems up and running during your busiest hours. In order to accommodate your busy schedule, APC offers an option to schedule services off hours. We will work with you to find a time when servicing your system is least likely to impact your productivity, saving your business time and money.
Multiple levels of service	With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.
