WADVPLUS-E8-62 Features	
(1) Year Advantage Plus Service Plan for (1) EPS 8000 555 kVA UPS	
Comprehensive escalation and corrective actions process	In order to resolve outages as quickly as possible and to keep such event from recurring, APC follows a rigorous escalation process that includes in depth root cause discovery and corrective actions practices.
Corrective maintenance	As part of our Preventative Maintenance Service, APC will proactively schedule maintenance visits for issues discovered during our Escalation and Corrective Actions process.
Free firmware upgrades	Part of maintaining your system is ensuring the unit is operating with the most recent firmware version. Firmware upgrades are provided at no extra charge. All Preventive Maintenance contracts include free firmware upgrades.
Functional verification	During each Preventive Maintenance visit, our Certified Field Service Engineers will run tests to verify your system is functioning correctly in all operational modes, stopping problems before they start.
Logistics coordination	APC will coordinate the logistics of your installation, from hardware delivery to scheduling installation technicians, ensuring a smooth installation process from start to finish.
Proactive monitoring	By utilizing customer-specific and global trending techniques, remote monitoring professionals can proactively identify and anticipate physical infrastructure threats before they occur.
System cleaning	Cleaning your system of dust and grime accumulated during normal operation will extend the life of the hardware.
Written summary report	APC project managers will provide you with written reports to keep you informed of the progress of your project.
