SxP Soldering & Rework Cartridge, Conical

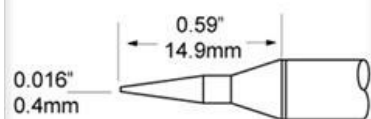

SFP-CNL04

Conical Long Reach 0.4mm x 14.9mm (.016" x .59")

Features and Benefits:

The SxP Cartridges are for use with the MFR-H1-SC soldering cartridge hand-piece of the MFR Single and Dual Platforms (MFR-1100 and MFR-2200). They provide a wide range of options addressing specialized soldering and rework applications. The second digit denotes substrate material. F = FR4/Glass fiber for most standard applications.
