PP120 Powerpole®
Connector

Powerpole® connectors provide cost-effective reliability, design flexibility and safety for your products' manufacture, installation and maintenance. Powerpoles are stackable and color-coded for easy customization into multipole blocks.

The housings are modular and genderless. Powerpole® connectors provide 600 Volts continuous AC or DC operation. Wire sizes range from #2 to #8 AWG (33.6 to 8.4 mm²).

FEATURES

• Flat wiping contact system
Minimal contact resistance at high current, wiping action cleans contact surface during connection/disconnection

• Colored modular housings
Provides visual identification of proper mating connector

• Molded-in dovetails
Secures individual connectors into "keyed" assemblies which prevents misconnection with similar configurations
