## Pibow Zero Case for Raspberry Pi Zero version 1.3

The Raspberry Pi Zero has been upgraded to include a camera port, display it with pride in this eye-catching new Pibow.

**Note:** this is the case for the [Raspberry Pi Zero v1.3](#) only. This case is not compatible with the Pi Zero W or the Pi Zero v1.2 (without camera connector). Does not include a Raspberry Pi Zero v1.3!

### Features

- Compatible with [Raspberry Pi Zero v1.3](#)
- Super-slimline profile
- Fully HAT/pHAT compatible
- Protects your beloved Pi Zero!
- Clear top and base leave Raspberry Pi Zero visible

- GPIO cut-out
- Leaves all ports accessible (encloses micro-SD)
- Made from lightweight high-quality cast acrylic
- Great for hacking and tinkering!
- Made in Sheffield, UK

Crafted out of four unique layers including a transparent top and base that leave your beautiful Pi visible inside. Each layer is laser-cut from colourful high-quality cast acrylic and once stacked they securely contain a Raspberry Pi Zero while leaving the primary ports and GPIO accessible.

This case is lightweight and ideal for mounting to any surface. No tools are required for assembly or disassembly.

**Anonymous** ★★★★★☆

Nice little case for pi zero. Access to the microSD means disassembly.

**Stephen Hill** ★★★★★☆

I wish this case gave access to the SD card because I like experimenting with (and killing) the OS. It's a faff to take the thing apart to get to the SD card. I took the backing tape off of the second layer and it just fell apart in my hands. Not a major problem because when the case is bolted together you can't see the join. However when taking it apart you have one more piece to line up correctly. This is probably just a one off problem because my Pi Zero W case, which is essentially the same, did not break in the same place. It would also be nice to have a cutout for a cpu heat sink.
