Part Number : SW007022 - MATLAB/Simulink Device Blocks for dsPIC3x

The MATLAB(R)/Simulink(R) block set for provides a set of interface-compliant configuration and run-time peripheral blocks for the dsPIC33 DSCs. It also provides an example and additional blocks in the form of a complete BLDC motor control application. Ver 2.0 adds support for dsPIC30F family, and compatibility with R2009a. [More Info >>](#)
