

## Screw Terminals 5mm Pitch (2-Pin)

PRT-08432 ROHS ✓

★ ★ ★ ★ 1

DESCRIPTION DOCUMENTS

Screw Terminals with 5mm pitch pins. Comes in 2 or 3 positions and have the really cool feature of slide-locking together to form any size you need (4, 5, up to 20 without problems). Rated up to 300V @ 8A. Terminal can accept 26 to 14AWG wire. 5mm/197mil pin pitch will line up well with standard 0.1" perf boards but the pins are thick enough (1.0mm OD) that you may need to increase the hole diameter on some perf boards.

**Note:** The 2-pin terminals only connect to other 2-pin terminals. They will not connect to the 3-pin terminals.

## Screw Terminals 5mm Pitch (2-Pin) Product Help and Resources

SKILLS NEEDED

## Core Skill: Soldering

This skill defines how difficult the soldering is on a particular product. It might be a couple simple solder joints, or require special reflow tools.

**Skill Level: Noob** - Some basic soldering is required, but it is limited to a just a few pins, basic through-hole soldering, and couple (if any) polarized components. A basic soldering iron is all you should need.

## Core Skill: DIY

Whether it's for assembling a kit, hacking an enclosure, or creating your own parts; the DIY skill is all about knowing how to use tools and the techniques associated with them.

**Skill Level: Noob** - Basic assembly is required. You may need to provide your own basic tools like a screwdriver, hammer or scissors. Power tools or custom parts are not required. Instructions will be included and easy to follow. Sewing may be required, but only with included patterns.
