

M12 L-CODE CABLE ASSEMBLY

M12 Power L-code connectors are an extension of the current M12 IEC standard and have been selected by PROFIBUS and PROFINET International as the standard for 24-volt power supply systems used in PROFINET devices. An extension of TE's M12 product portfolio, M12 L-code cable assemblies handle up to 16A per pin – the highest in TE's M12 family – delivering four times the power of standard M12 connectors while providing reliable and efficient power supply. M12 Power L-coded connectors take up to 40% less space and almost 80% more power than 7/8" connectors traditionally used for high-power connections. The M12 power cable assemblies are available in both male and female connectors and suitable for every purpose with its conductor size from 1.5 mm^2 up to 2.5 mm^2 allowing for a more compact build of a high-power solutions for automation devices.

TE's new M12 Power L-code connectors are IP67 rated, protected from dust and resist temporary submersion in water at depths of up to 1 meter for 30 minutes. The L-coding version is designed for DC power supplies with 63 V DC / 16 A, where a high current and low voltage is required making ideal for Fieldbus Ethernet I/O boxes, Ethernet systems, Network Devices, Motors and Drives and Valve applications. The power cable assemblies are available through TE's global distribution network, which provides customers with short lead-times and fast responses for technical support.

BENEFITS

- Unit remains protected and fully operational in most industrial applications
- Secured signal connections and data transmission
- Protection against mismatching with coded pin connector patterns
- PNO approved for immediate implementation into PROFINET standard and embracing miniaturization of distribution boxes
- One stop shop solution with broad product portfolio with cable jacket colors and material options
- Highly configurable with numerous connector variations, standard cable lengths up to 20mtrs and wire sizes

Downloaded from Arrow.com.

M12 L-code Cable Assembly

FEATURES

- Enclosure rating of IP67
- 360 degrees shielding for reliable EMC protection and robustness
- Preventing mismatching connectors with different voltages
- PROFINET-conforming color scheme with L-coding versions
- Different cable materials PUR or PVC in shielded and non-shielded versions
- Custom specifications and cable lengths are available
- Depending on the material, the assemblies withstand up to 4 million flexes, machine oils, abrasion and UV radiation
- The new assemblies are available with several standard cable length options from 0.5m through to 20m

APPLICATIONS

- Industrial communications
- Industrial machinery
- Robotics
- Material handling
- Industrial control and factory automation
- Test equipment
- I/O connectivity
- Sensor and actuators

ELECTRICAL

- 63V DC/AC
- 12A (16AWG)
- 16A (14AWG)
- Initial value contact resistance: 5mΩ Max.
- Rated impulse voltage 1.5KV

MECHANICAL

- Durability: 100 cycles
- Degree of protection: IP67
- Mating and un-mating force:
  - Insertion: 30N max. for 4P,45N Max. for 5P
  - Withdraw: 30N max. for 4P,45N Max. for 5P
- Sinusoidal vibration per IEC60512, Test 6d
- Mechanical shock per EIA364-27

MATERIALS

- Nylon for HSG
- TPU for overmolding
- Copper alloy for metal nuts, Nickel plated
  Cable jacket materials: PVC and PUR
- Cable information:
  - Temperature rating:
    - Power cable AWM2464 4C AWG14 (2.5mm²)
      PVC black
      Operating temperature -40°C to +80°C (fixed)
      -20°C to +80°C (flexible)
    - Power cable AWM20233 4C AWG16 (1.5mm²)
      PUR black drag chain
      Operating temperature -50°C to +80°C (fixed)
      -30°C to +80°C (flexible)
    - Power cable AWM2464 5C AWG14 (2.5mm²)
      PVC Gray
      Operating temperature -40°C to +80°C (fixed)
      -20°C to +80°C (flexible)
    - Power cable AWM20233 5C AWG14 (2.5mm²)
      PUR Gray drag chain
      Operating temperature -40°C to +80°C (fixed)
      -20°C to +80°C (flexible)
    - Power cable AWM20233 5C AWG16 (1.5mm²)
      PUR Gray drag chain
      Operating temperature -50°C to +80°C (fixed)
      -30°C to +80°C (flexible)
    - Power cable AWM20233 5C AWG14 (2.5mm²)
      PUR Gray Shielded Drag chain
      Operating temperature -50°C to +80°C (fixed)
      -30°C to +80°C (flexible)
  - PUR cables suitable for drag chain application (up to 4 million cycles)
  - Oil resistant
  - Flame retardant: VW-1/FT1
  - UV resistant
  - High Conductivity Copper alloy for terminals, Gold plated

STANDARDS

- UL 2237
- AWM style cables
- Electrical Standard 61076-2-111

Note: Color coding has been introduced by the "PROFIBUS and PROFINET International" (PI) user organization for better identification and to avoid confusion during installation:

- 4-pole versions have a black contact carrier and jacket
- 5-pole versions have a grey contact carrier and jacket

The contact carriers and the cables are color-coded so that end users don't confuse the 4-pin and 5-pin variants. The 4-pin L-coded M12 variants have a black contact carrier and cable. The 5-pin variants with an FE contact have a gray contact carrier and cable.
