Control
Inductive proximity switches Square type:

PE-B series

Feature	Types and ratings
Dimensions	Type number nomenclature

Square type for easy set-up
Wide product range from a super compact type of 4mm operating distance to a 50 mm long distance model

- 4mm to 50mm operating distance
- Types with operating distance exceeding 20mm conform to theCENELEC Standard.
- Operating voltage range:80 to 250V AC or 10 to 30V DC

IEC60947-5-2

Feature

Design features

- Operating distance from 4mm to50mm permits a variety of applications.
- LED's for operating indication lamp are provided for all types thus facilitating operation checks.
- Ones with an operating distance of over 20mm meet the requirements of the CENELEC Standards.
- Wide operating voltage range.
Operating range of supply voltage is from 80 to 250V AC or from 10 to 30VDC.
- Provided with built-in reverse polarityand surge voltage protection circuits.
- PNP output types are also available thus permitting application tomachine tools in Europe.
