Product Description

This Snagless Shielded Cat6a patch cable is ideal for use with 10GBase-T ports and equipment, such as network adapters, hubs, switches, routers, DSL/cable modems and patch panels, and will protect a high speed 10 Gigabit network connection from noise and electromagnetic interference. For voice/data/video distribution, this cable will handle bandwidth-intensive applications and drastically reduces both impedance and structural return loss (SRL). Each patch cable is fully tested to meet ANSI/TIA 568 C.2 Cat6a component requirements.
Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point. Constructed from high quality cable and plugs, this design minimizes Near-End Crosstalk (NEXT) levels. Available in a variety of colors to easily color-code a network installation. Individual length label on each cable for ease of use.

Product Specifications

Color :	Blue
Length :	2.00 Foot
Jacket Rating :	Standard Non-Rated
UPC :	757120006732
Warranty :	Lifetime
Vendor :	C2G
Weight :	0.088 LB

Physical Characteristics

•Cable type: Stranded SSTP
•Wiring scheme: 568B
•Temperature rating: 75°C
•Testing: ANSI/TIA 568 C.2 Cat6a component tested
Conductor (4 pair)
•Conductor type: 26AWG (7/0.16) (bare copper)
•Insulation: FM-PE
Overall cable
•Foil shield: Aluminum foil (100% coverage)
•Braided shield: Copper braid (40% coverage)
•Jacket: PVC
Connector
•Connector Type: RJ-45 Male
•Shell: Nickel plated for shielding
•Housing: Polycarbonate,
•Contacts: 50µm gold plated
•Hood: Molded Snagless PVC
•Dimension (L x W x H): 38.2 x 11.6 x 15.1
