MGE Galaxy 3000 Features & Benefits

Serviceability

Multiple levels of service

With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.

7x24 telephone technical support

Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you need is there when you need it.

Front-access servicing

Simplifies installation and UPS maintenance while minimizing space requirements.

Availability

SmartSlot

Customize UPS capabilities with management cards.

Network manageable

Provides remote power management of the UPS over the network.

Automatic internal bypass

Supplies utility power to the connected loads in the event of a UPS power overload or fault.

Parallel-redundant capable

Power the connected equipment with multiple uninterruptible power supplies to increase system redundancy

Dual mains input

Increases availability by allowing the UPS to be connected to two separate power sources.

Total Cost of Ownership

Input power factor correction

Minimizes installation costs by enabling the use of smaller generators and cabling.

Fully-rated power kVA equals kW

Reduces cost by eliminating the need for an oversized UPS for Power Factor Corrected (PFC) loads.
