**Motherboard Support**

The SySTIUM® Model 526EX **MotherBoard Ready™** platform is a uATX form factor platform that can be used in either a desktop or tower orientation. The unique design allows for the operation of the system in a vertical or horizontal configuration. Up to four add in cards slots are supported, add in card type and quantity is determined by motherboard used. The Model 526EX includes a quality 450W 80PLUS power supply, power cord, mounting hardware, re-usable single pack packaging and documentation.

The chassis' unique form factor and hidden CDROM makes the product a perfect choice for OEM applications without the "PC" look. Dual rear cooling fans, used in conjunction with SySTIUM® processor heat-sinks, ensure reliable operation in demanding applications.

Chassis comes standard in two colors, Black and Cool Gray (Pantone 427C).

Important Note: SySTIUM® heatsink 10312-25 may be required to maintain regulatory compliance with many of the SySTIUM® Certified motherboards, please reference the Maintaining Regulatory Compliance documentation for the Model 526EX.

**Warranty:**

- **"M" Product Warranty** applies if a SySTIUM® Certified motherboard is used and the system is integrated per the SySTIUM® Assembly and Maintaining Regulatory Compliance (MRC) documentation that ships with Product.
- **"C" Product Warranty** applies if a different motherboard is used.
- **"M" and "C" Product Warranties** only cover the SySTIUM® supplied **MotherBoard Ready™** Platform components. **Integrator/customer supplied components/peripherals used with SySTIUM® MotherBoard Ready™ Platform are not covered by the SySTIUM® warranty and are the responsibility of the integrator or customer.**

**Packaging:**

The Model 526EX is shipped to the integrator in a robust, reusable single pack package. This packaging has been drop tested and has been designed for shipping a fully integrated computer system via common carriers (UPS, FedEx, DHL, etc.) When ordering multiple units, these single packs can be shrink wrapped on a pallet, for shipping LTL to the integrator. This reduces shipping costs on a per unit basis and it also minimizes the wear and tear on the single pack exteriors. Replacement single pack components are available for sale.

[Contact SySTIUM®](#) for spare single pack components or if you have special packaging requirements, SySTIUM® can design custom packaging to meet your specific requirements.

**Part Numbers:**

- 52603EX-00 Black, 450W 80PLUS without certifications
- 52603EX-00R Black, 450W 80PLUS with certifications
- 52604EX-00 Cool Gray, 450W 80PLUS without certification
- 52604EX-00R Cool Gray, 450W 80PLUS with certifications
