1.5ft USB to DB9 Serial Adapter Cable

Convert a DB9 RS-232 serial device to USB; great for PDAs, digital cameras, and many other peripherals!

Product # : 26886
 Availability : 27948 In Stock - Ready to [ship!](#)
 MSRP:
 Quantity: [Add To Cart](#)

Overview

Connecting USB with the traditional RS-232 serial port, this adapter connects cellphones, PDAs, digital cameras, modems, or ISDN terminal adapters through your USB port. Has a data transfer rate of over 230 kbps. Since the adapter uses no IRQs, there are no IRQ conflicts, and it is ideal for when you need many serial devices attached to your PC. Frees your RS-232 port for other uses.

[Here is the driver for download! Now compatible with Windows 7!](#)

Connector 1: (1) USB-A Male

Connector 2: (1) DB9 Male

Product Specifications

Color:	Blue
UPC:	757120268864
Warranty:	1 Year
