

# MOSFET

## OptiMOS™ 3 Power-Transistor, 120 V

### Features

- N-channel, logic level
- 100% avalanche tested
- Excellent gate charge x RDS(on) product (FOM)
- Very low on-resistance RDS(on)
- 150 °C operating temperature
- Pb-free lead plating; RoHS compliant
- Ideal for high-frequency switching and synchronous rectification
- Halogen-free according to IEC61249-2-21

### Product validation

Qualified according to JEDEC Standard

Table 1 Key Performance Parameters

| Parameter        | Value | Unit |
|------------------|-------|------|
| $V_{DS}$         | 120   | V    |
| $R_{DS(on),max}$ | 8.0   | mΩ   |
| $I_D$            | 99    | A    |
| $Q_{oss}$        | 79    | nC   |
| $Q_G(0V..10V)$   | 79    | nC   |

## 5 Package Outlines

| PACKAGE - GROUP<br>NUMBER: <b>PG-TDSON-8-U08</b> |             |      |
|--------------------------------------------------|-------------|------|
| DIMENSIONS                                       | MILLIMETERS |      |
|                                                  | MIN.        | MAX. |
| <b>A</b>                                         | 0.90        | 1.20 |
| <b>b</b>                                         | 0.34        | 0.54 |
| <b>c</b>                                         | 0.15        | 0.35 |
| <b>D</b>                                         | 4.80        | 5.35 |
| <b>D1</b>                                        | 3.90        | 4.40 |
| <b>D2</b>                                        | 0.00        | 0.22 |
| <b>E</b>                                         | 5.70        | 6.10 |
| <b>E1</b>                                        | 4.05        | 4.25 |
| <b>e</b>                                         | 1.27        |      |
| <b>L</b>                                         | 0.45        | 0.65 |
| <b>L1</b>                                        | 0.45        | 0.65 |

- 1) EXCLUDING MOLD FLASH
- 2) REMOVAL ON MOLD GATE  
INTRUSION 0.1 MM  
PROTRUSION 0.1 MM
- 3) ALL METAL SURFACES ARE PLATED,  
EXCEPT AREA OF CUT

## Revision History

BSC0302LS

**Revision: 2022-09-21, Rev. 2.2**

Previous Revision

| Revision | Date       | Subjects (major changes since last revision)             |
|----------|------------|----------------------------------------------------------|
| 2.0      | 2019-12-02 | Release of final version                                 |
| 2.1      | 2022-08-09 | Update "Features", qualification, footnotes and fix bug. |
| 2.2      | 2022-09-21 | Update outline drawing                                   |

It is the responsibility of customer's technical departments to evaluate the suitability of the product for the intended application and the completeness of the product information given in this document with respect to such application.

### Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office ([www.infineon.com](http://www.infineon.com)).

### Warnings

Due to technical requirements, components may contain dangerous substances. For information on the types in question, please contact the nearest Infineon Technologies Office.

The Infineon Technologies component described in this Data Sheet may be used in life-support devices or systems and/or automotive, aviation and aerospace applications or systems only with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support, automotive, aviation and aerospace device or system or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
