★★★★★ **Don't EVER run out of these jumper wires!**

about 3 years ago by Member #558140 ✔ verified purchaser

I use these all the time for both the Arduino and Rpi and they have made my life so much easier.

★★★★☆ **IOIO kit**

about 3 years ago by jur123 ✔ verified purchaser

I bought a IOIO kit. The ioio board dos not fit the plastic board, and the transformer is fitted with a connection not usable in the Netherlands/EU. Not a very satisfying buy.

★★★★★ **Jumper all the things!**

about 3 years ago by imabug ✔ verified purchaser

Whether you need to make connections between female headers, or male pins, this bundle has you covered. Male to male? Covered. Female to female? Covered. Male to female? Covered. Nicely put together and a pretty good length for most projects.

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
