Chassis-mount terminal strip, 862 Series, black

Enjoy error-free electrical installations with this chassis-mount terminal strip (item number 862-504). Ensure that the strip lengths are between 10 mm and 11 mm when connecting conductors to this chassis-mount terminal strip. This product features conductor terminals and utilizes Push-in CAGE CLAMP®. Push-in CAGE CLAMP® connection technology is ideal for connecting all conductor types. It allows direct insertion of both solid and fine-stranded conductors with ferrules without needing to use any tools—all thanks to its pluggable design. This chassis-mount terminal strip is suitable for conductor cross sections ranging from 0.5 mm<sup>2</sup> to 4 mm<sup>2</sup>. Up to four potentials / four poles can be connected to this terminal strip using sixteen clamping points. The black housing is made of polyamide (PA66) for insulation. This product is designed for specific Ex applications (please refer to the product datasheet).

## Installation Notes

**Cost-effective features:**

WAGO's 862 Series Chassis-Mount Terminal Strips were developed specifically to minimize wiring costs, while accommodating requirements for flexible mounting, multiple connection points and easy usage:

- Equipped with Push-in CAGE CLAMP®, the 862 Series connects up to four conductors sized 0.5 to 4 mm<sup>2</sup> (20 ... 12 AWG). Due to multiple connection points per pole, different conductor sizes can be used within the same terminal block position.
- For factory wiring, Push-in CAGE CLAMP® Connection Technology allows solid conductors, fine-stranded conductors with ferrules or ultrasonically bonded conductors from 0.5 ... 4 mm<sup>2</sup> (20 ... 12 AWG) to be terminated by simply pushing them into unit (length of bonded conductor end: min. 10 mm).
- Convenient automatic grounding contact (optional)
- Snap-in mounting feet for fast assembly
- Push-buttons for easy installation with an operating tool or by hand
- Built-in test points simplify testing with 2 mm Ø test plug
- Standard marking for each pole, or custom marking for large orders

### Conductor termination

Terminating four conductors per pole – solid and fine-stranded.

Inserting a conductor via push-button.

### Commoning

Commoning using a comb-style jumper bar (862-482).

### Testing

Testing with a 2 mm Ø test plug (max. 42 V).
