Description

481 Series alarm indicating fuses are designed to reduce down time by immediately pinpointing the blown (open) circuit while triggering an LED or audio alarm. This item requires 482 Series mating fuse holder.

All ranges of 481 Series fuses are available as our original design, and the 2-20 amp range is now available as a RoHS compliant option (use the "P" designator when ordering). See the part numbering section of this data sheet for related ordering instructions.

Features

- Color-coded indicator flags indicate ampere rating.
- Clear plastic lens option available for additional safety.
- RoHS compliant
- Body is constructed of black plolyphenylene sulfide with UL 94 V-0 flammability rating.
- Contacts made of bright alloy-plated beryillium copper.

Applications

Ideal for telecommunications and control panel circuits
