[PL1629AS Strip Lenses for Power LEDs Asymmetric Beam](#)

PL1629AS Strip Lenses for Power LEDs; Asymmetric Beam

KHATOD

Description

Strip Lenses for Power LEDs

200,00mm x 12,50mm - 8,50mm height - Asymmetric Beam

BENEFITS:

- High Precision Injection Molded Strip TIR Lens
- Linear Pins provided for robust mounting into aluminum extruded profile
- Dimensions HxWxL = 8,5 x 12,5 x 200 mm
- Optical Grade PMMA
- Efficiency > 89%
- Good Performance and Compatibility for a wide range of LEDs
- Usable for both white and color LEDs

TYPICAL APPLICATIONS:

- Architectural & Decorative
- Retail & Museum
- Aircraft Interior
- Under Cabinet
- Wall Washing
- Cove & Corridor
- Shop Windows

SUGGESTED LEDs:

Khatod Strip lenses are designed and optimized to suit most of the SMD LEDs used to build long strips. They also exhibit good performance with high brightness LEDs.

Also, Khatod delivers the great opportunity to test immediately our lenses!

On request, you will be supplied with proper aluminum extrusions specifically engineered for housing the SYMMETRIC and ASYMMETRIC STRIP LENSES from KHATOD.

The extrusions, supplied only on request, are 600mm long and can hold up to 3 parts of butted up together Strip Lenses that will perform like one single strip lens delivering a perfect continuous smooth lighting.

The extrusions can be cut to size so enabling to realize any desired lengths. The Strip Lenses and the extrusions are supplied separately and you are totally free to require just the strip lenses without the extrusions.

Khatod Strip Lenses are provided with linear pins enabling a robust mounting into the proper aluminum extrusion.
