Product Overview	Technical Specifications	Ratings & Reviews
Configurable Power Distribution Features & Benefits		
Availability		
Wide Range of Applications	Configure-to-order process allows APC to configure, install, and test complete system before shipping	
Serviceability		
Front-access servicing	Simplifies installation and UPS maintenance while minimizing space requirements.	
Marketing Features		
Wide Range of Applications	Configure-to-order process allows APC to configure, install, and test complete system before shipping	
Local and web-based monitoring	Status available to customers both in the data center and remotely	
Alarm Thresholds	Current Transformers on each circuit that can provide amp ratings on each circuit position to prevent circuit breaker overloads	
Remote Management Capabilities	Full-featured network management interfaces that provide standards-based management via Web, SNMP, and Telnet. Allows users to access, configure, and manage units from remote locations to save valuable time. Associated with this feature is the ability to quickly and easily upgrade the firmware via network download to installed units for future product enhancements.	
Total Cost of Ownership		
Reduced footprint	Minimizes your real estate expenses using the aesthetic APC™ NetShelter™ IT enclosure form factor	
Circuit Breaker Panel	Provides breaker positions for distribution to racks and power zones	
System mobility	Power distribution units can easily be relocated to accommodate a changing data center environment.	
Product Distribution		
Canada , United States
