Description

What is Mini Soldering Iron?

Mini Soldering Iron is a small, lightweight and rapid-heating (cold to 300°C in 10 second) soldering iron with an OLED screen, which is perfect for kit building and other soldering applications.

This Mini Soldering Iron is programmable and the temperature can be controlled accurately from 100°C to 400°C. Benefiting from the dual temperature and accelerator sensors, the soldering iron is equipped with the following two features to ensure users' safety: sleeping mode and over-heating notification.

The iron tip is replaceable and we include 2 types of iron tips in this package.
