

JST-PH Female to JST-SM Female Adapter - 100mm

PRT-14999

DESCRIPTION

This simple adapter wire terminates on one end with a JST-PH Female connector, and a JST-SM Female connector on the other. It can be used as a bridge between their respective connector mates. Each wire is 100mm long and is capable of supporting up to 300V.

These adapters can be used with our EL products to make them more useful with different types of connectors.
