

## mikromedia HMI 5" UXW

PID: MIKROE-2287

A smart display solution, **mikromedia HMI 5" UXW** has a **800x480px** color display with a capacitive touch panel and decorative white bezel on the front, and a powerful **FT900Q** 32-bit MCU with additional essential circuitry on the back - making it a standalone but cost-effective solution suitable for industrial applications.

### Specifications

|                    |                        |
|--------------------|------------------------|
| Type               | mikromedia HMI         |
| Architecture       | FT90x (32-bit)         |
| Display size       | 3.5"                   |
| Resolution         | 800x480px              |
| Graphic controller | FT813                  |
| Touch Screen       | Capacitive             |
| Silicon Vendor     | FTDI                   |
| Frame Type         | Bezel                  |
| Features           | Haptic,SD Card,Speaker |
| Display type       | mikromedia HMI         |

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.  
ISO 14001: 2015 certification of environmental management system.  
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
