

KITMPR084EVM: 8-Pad Touch MPR084 Evaluation Board ☆

[Overview](#) [Documentation](#) [Downloads](#) [Buy / Specifications](#)
[Data Sheet](#) [Buy](#)

This evaluation kit features the MPR084 proximity sensor controller that is intended for applications where non-contact sensing of objects is desired. The kit allows for designers to easily evaluate the MPR084 in any application, specifically capacitive touch sensing. The connector offers access to all electrodes, enabling you to connect the touch pad board or any other electrode design of your choosing.

Features

- Sample electrode board demonstrates key pad touch sensor
- Machined plastic cover for front panel non-contact touch evaluation
- Access to all 8 electrodes
- A Graphical User Interface that gives the user the ability to set many operational parameters
- USB Connectivity

Kit Contains

- MPR084 Proximity Sensor Controller and an MC68HC908JB8JDW microcontroller
- Sample key pads
- Plastic cover for key pads
- Standard 15 pin header
- LEDs – 1 for PWR, 1 per Pad
- Resistors – for each electrode
- Processor – MC68HC908JB8JDW
- 8 key pad – Reference design
- USB connectivity for power and PC access
- USB cable
