

WD Caviar[®] Black[®] Desktop Hard Drives

WD Caviar Black drives combine a high performance electronics architecture with a rock solid mechanical architecture to deliver the perfect storage solution for your fully-loaded PC or maxed out gaming machine. Cool drive operation, no-touch head technology, leading-edge vibration protection ensure enhanced reliability.

INTERFACE SATA 6 Gb/s

WD1502FAEX

WD1002FAEX

MODEL NUMBERS WD2002FAEX WD WIDTH/HEIGHT 3.5-inch/1-inch

ROTATIONAL SPEED 7200 RPM

Note: Not all products may be available in all regions of the world.

Product Features

Rock Solid Mechanical Architecture

WD7502AAEX

WD5003AZEX

WD5002AALX

Dual actuator technology
A head positioning system with two
actuators that improves positional
accuracy over the data track(s). The
primary actuator provides coarse
displacement using conventional
electromagnetic actuator principles.
The secondary actuator uses a
piezoelectric motor to fine tune the
head positioning to a higher degree
of accuracy. (2 TB and 1.5 TB models
only)

- StableTrac[™] The motor shaft is secured at both ends to reduce system-induced vibration and stabilize platters for accurate tracking, during read and write operations. (2 TB and 1.5 TB models only)
- NoTouch[™] ramp load technology The recording head never touches the disk media ensuring significantly less wear to the recording head and media, as well as better drive protection in transit.

High Performance Electronics Architecture

- Dual processor Twice the processing power to maximize
- Colossal cache Bigger, faster cache of up to 64 MB means faster performance.

Massive Capacity

WD Caviar Black SATA drives are available in capacities up to 2 TB.

Compatible

We perform tests on hundreds of systems and a multitude of platforms in our FIT Lab™ and Mobile Compatibility Lab to give our customers confidence that our drives will work in their systems.

5-year limited warranty

Applications

- · Power computing applications such as multimedia, video and photo editing, and maxed out gaming computers.
- Desktop / Consumer RAID Environments WD Caviar Black Hard Drives are tested and recommended for use in consumer-type RAID applications (RAID-0 / RAID-1).
- Business Critical RAID Environments WD Caviar Black Hard Drives are not recommended for and are not warranted for use in RAID environments utilizing Enterprise HBAs and/or expanders and in multi-bay chassis, as they are not designed for, nor tested in, these specific types of RAID applications. For all Business Critical RAID applications, please consider WD's Enterprise Hard Drives that are specifically designed with RAID-specific, time-limited error recovery (TLER), are tested extensively in 24x7 RAID applications, and include features like enhanced RAFF technology and thermal extended burn-in testing.

¹As used for storage capacity, one megabyte (MB) = one million bytes, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for buffer or cache, one megabyte (MB) = 1,048,576 bytes. As used for transfer rates or interface, megabyte per second, (MB/s) = one million bytes per second, and gigabyte per second (Gb/s) = one billion bits per second (Gb/s) = one billion bits per second. Effective maximum SATA 3 Gb/s and SATA 6 Gb/s transfer rates calculated according to the Serial ATA specification published by the SATA-10 organization as of the dation sheet. Visit www.sata-i.org of details.

³Controlled unload at ambient condition

⁴The term of the limited warranty may vary by region. Visit http://support.wdc.com/warranty for details. ⁵No non-recoverable errors during operating tests or after non-operating tests.

⁶Sound power level.

WD Caviar Black is part of WD's complete lineup of desktop hard drives.
