Overview	1.It is a product only on the receptacle side of SL-4000-AS.
Note	1.Fluororesin is applied to the buttons to facilitate the operation of the buttons. It may appear that white foreign matter has adhered due to the concentration and retention of this fluororesin in the concave parts of the button operation part，but there is no problem with the quality. 2.When using ferrules, please verify that insertion and removal are possible before use. The applicable wire range for ferrules conforms to the ferrule specifications.
