E SERIES RECEPTACLES

[click here to download a schematic drawing](#)

(you will need to have Adobe Acrobat installed on your system to do this)

E Series Q-G[®] Receptacles are available with quick release inserts. Quick insert release is accomplished by turning screw lock from front of insert. Insert can then be removed from the rear. For PC board applications, insert can be removed/assembled to the housing while soldered to the PC board.

E Series receptacles can be specified as complete assemblies, or as separate inserts and housings. Stocking separate inserts and housings offer considerable cost and time savings by minimizing inventory and maximizing configuration possibilities.

FEATURES

- * Replaces Neutrik D Series
- * 3-pin contact; male and female types
- * Both male and female fit in same panel cutout
- * Choice of 4 terminations; solder cups, conical springs, straight or right-angle PC terminals
- * Inserts and housings can be specified separately
- * Quick release inserts for ease of removal
- * Locking receptacles
- * Protected ground clip minimizes scooping damage
- * Insert lock detent resists disassembly from shock or vibration during normal handling and transportation
- * Silver and gold-plated contacts available
- * Rugged metal shells; black or satin nickel finishes
- * Through-the-shell ground connection and all-metal shells for greater shielding effectiveness
- * Compatible with Switchcraft Q-G[®], QGP and other connectors with similar configurations

QUICK RELEASE INSERT

In two simple steps, inserts can be released while housing stays fastened to the panel.

1. With a small screwdriver, twist insert locking screw from front of insert.
2. Remove insert from the rear of the housing.

SPECIFICATIONS

ELECTRICAL

Contact Resistance: 50 milliohms maximum, per pole.

Current Rating: 15A

Insulation Resistance: 2×10^6 M(ohm)

Dielectric Resistance: 1,000 V rms

Capacitance: 10 pF

MECHANICAL

Insertion/Withdrawal Forces: 7 pounds maximum/5 pounds nominal insertion; 7 pounds maximum/5 pounds nominal withdrawal.

Life: 10,000 operations (minimum).

ENVIRONMENTAL

Thermal Range: -55° C to +85° C

Humidity: Meets MIL-STD-202F, method 106E.

Thermal Shock: Meets MIL-STD-202F, method 107D.

Salt Spray: Meets MIL-STD-202F, method 101D.

MATERIAL

Shells: Die-cast; satin-nickel or Black Velvet.

Inserts: Glass-filled thermoplastic.

Socket Contacts: Copper alloy, silver- or gold-plated.

Pin Contacts: Copper alloy, silver- or gold-plated.

Latch Release: Steel, nickel-plated.

Insert Locking Cam: Die-cast zinc.

TERMINALS

Four terminations are available on E Series receptacles:

1. Conical Spring Solder terminals - conical spring on each pin holds wire in place providing constant pressure during soldering process. This effectively acts as a third hand, assuring a high quality solder termination. Housing mounts to panel.

2. Straight PC terminals - direct termination to PC board. Housing mounts to panel.

3. Right-angle PC terminals - direct termination to PC board at a right-angle. Housing mounts to panel.

3. SC - Solder cup

Each character (or absence thereof) in the part numbers listed above denotes one specific feature.

Character	Description
E	Series designator
3	3 pins or contacts
*	M -male connector; F -female connector
QG	Denotes insert only
H	Denotes housing only
B	Black housing (absence of 'B' denotes satin-nickel housing)
RA	Right-angle PC terminals (absence of 'RA' or 'ST' denotes conical spring solder terminals)
ST	Straight PC terminals (absence of 'ST' or 'RA' denote conical spring solder terminals)
AU	Gold contacts (absence of 'AU' denotes silver contacts)
D	Fas-disconnect
SC	Solder Cup

1. Conical Spring Solder Terminals, Straight PC Terminals and Right Angle PC Terminals

2. Receptacles with new solder cup option shown

INSERTS AND HOUSINGS

Inserts and housings can be ordered separately to make any possible combination of the following features:

- 1) Silver or gold contacts
- 2) Satin nickel or black chrome over nickel housing
- 3) Locking
- 4) Male or female connector
- 5) Conical spring solder terminals, solder cup, straight or right-angle PC terminals

HOUSINGS

Part Number	Description
EFH	Used for locking female; satin-nickel finish.
EMH	Used for male; satin-nickel finish.
EFHB	Used for locking female; black finish.
EMHB	Used for male; black finish.
EFDH	Used for non-locking females.
EFDHB	Used for non-locking females.

ORDERING

1. Order part numbers from table.
2. Inserts and housings can be ordered separately providing many variations.
3. Contact Switchcraft for all special order items.

INSERTS
