Servo Hub - Lightweight (Hitec Standard) Product Help and Resources

SKILLS NEEDED

Core Skill: DIY

Whether it's for assembling a kit, hacking an enclosure, or creating your own parts; the DIY skill is all about knowing how to use tools and the techniques associated with them.

Skill Level: Noob - Basic assembly is required. You may need to provide your own basic tools like a screwdriver, hammer or scissors. Power tools or custom parts are not required. Instructions will be included and easy to follow. Sewing may be required, but only with included patterns.

Anyone know if the center spline of any of these servo hubs or servo gears will fit a potentiometer such as COM-09939?

[RobertC.](#) / about 4 years ago / ★ 1

I doubt it. however, you can use a clamping hub, with a 6mm bore (same as the shaft size) like [this one](#) [here](#)
