Dimensions in mm

PCB terminal block, 254 Series, solder pin dimensions 0.5 x 0.75 mm

This PCB terminal block (item number 254-801) streamlines wire connections, making them both quick and easy. You can count on tried and tested safety with these PCB terminal blocks, perfect for a wide range of applications when designing your devices. This PCB terminal block has a rated voltage of 320 V and can handle currents up to 10 A. Ensure that the strip lengths are between 10 mm and 12 mm when connecting conductors to this PCB terminal block. This product features one conductor terminal and utilizes PUSH WIRE®. Our PUSH WIRE® connection offers a quick and simple method for connecting solid conductors. The item's dimensions are 6.7 x 20.5 x 13.5 mm (width x height x depth). Depending on the type of conductor, this PCB terminal block is ideal for conductor cross sections ranging from 0.25 mm² to 0.75 mm². Up to one potential / one pole can be connected to this terminal block using two clamping points on one level. The contacts are made of electrolytic copper (ECu), the clamping spring is made of chrome-nickel spring steel (CrNi), and the gray housing is made of polyamide (PA66) for insulation. The contact surface is coated with tin. An operating tool is used to operate this PCB terminal block. THT is used to assemble the PCB terminal block. The conductor is designed to be inserted at a 45° angle.. The solder pins are organized within the terminal block (in-line). They are 0.5 x 0.75 mm cross-section and 4 mm in length. Each potential has two solder pins.

1.2.2 Test and measurement

1.2.2.1 Testing accessories

Item No.: 210-136

Test plug; 2 mm \emptyset ; with 500 mm cable; red

Installation Notes

Conductor termination

Removing a solid conductor.

Inserting/removing a ferruled conductor.

Marking

nation.

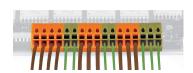

Labeling via factory direct marking.

Testing

Testing with 2 mm Ø test plug.

Application

Mixed terminal strips can be assembled using different housing colors for the formation of groups.

Mixed terminal strips can be assembled using different pin spacing and housing colors for the formation of groups.

Application example: field-wiring terminal strip

Subject to changes. Please also observe the further product documentation!
