Package

PQFP-128 L (1)

Notes:

1. Micrel maintains reliability data by manufacturing process, not by Micrel part number.

A particular part number may not appear in the reliability data listed for its associated

2. manufacturing process. Nonetheless, the reliability data for a process applies to all parts built

with that process.

To select multiple values in a box, hold down the CTRL key first, then use your mouse to choose desired values, and then release the control key.
