DESCRIPTION

DESCRIPTION

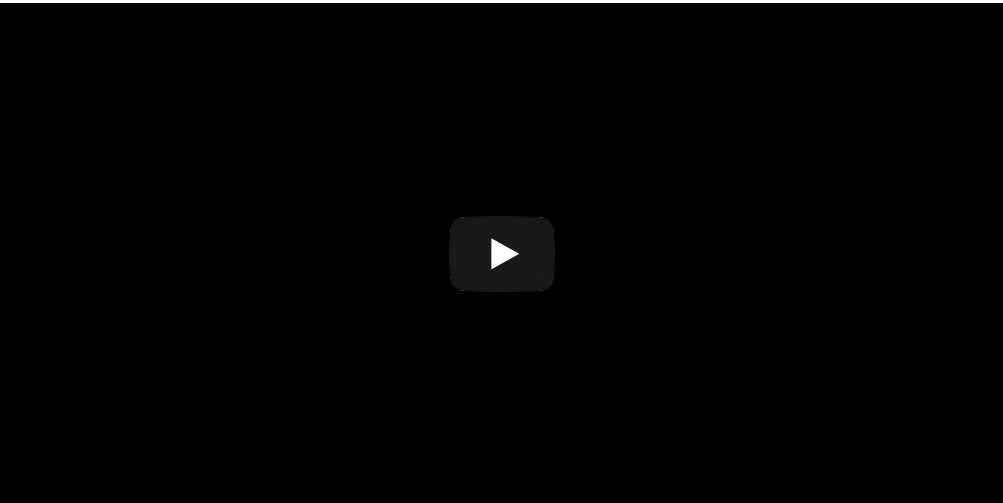

This is a special-purpose charger just for the [rechargeable LIR2450 Lithium Ion coin cells](#). Slide the coin cell in the right way, and plug into any USB port to recharge - so easy! Takes about 3

Downloaded from [Arrow.com](#). ONE LED will light up to let you know.

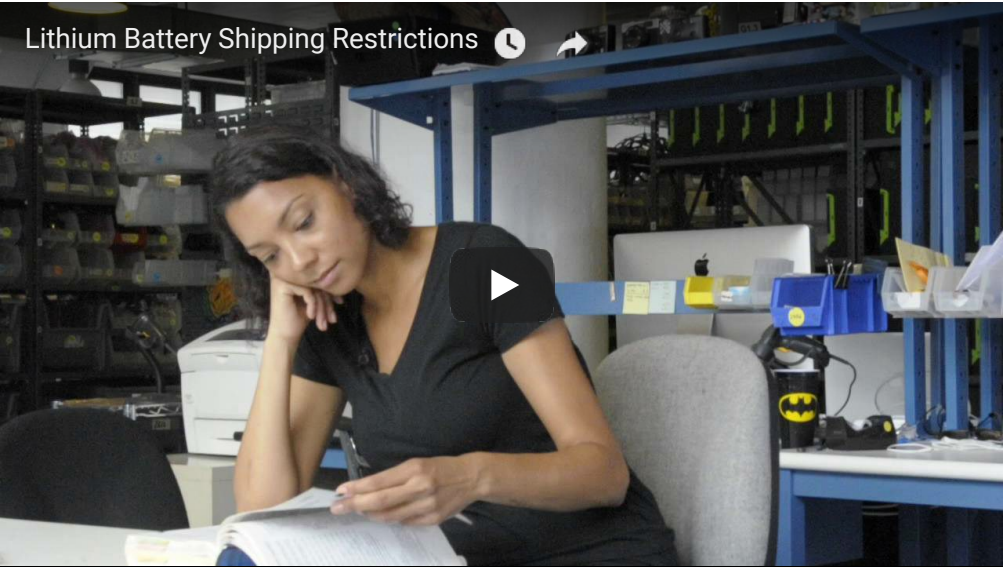

Rechargeable coin cell is not included, but we have 'em in the shop [here](#)

Charging is performed in three stages: first a preconditioning charge, then a constant-current 45mA fast charge and finally a constant-voltage trickle charge to keep the battery topped-up.

Only for use with rechargeable LIR2450 cells! Do not try to recharge non-rechargeable Lithium coin batteries! Do not charge unattended, do not charge damaged cells.

Lithium Ion Coin Cell Charger ([16:34](#))
