

Integrating A/V with the Collaborative Space

Current trends in workplace design are allocating more open space for meetings and collaboration. This trend presents a challenge for routing and managing the “last meter” of cables from the infrastructure to the point-of-use. Furthermore, connectivity and power configurations that are required to help business run smoothly, change quickly as new technologies are introduced. Wiremold Meeting Room Solutions solve all these issues with the new InteGreat™ Series of products. InteGreat Products are specifically designed to fit together, protecting the routing of power, communication and A/V cables from the point-of-use to the building infrastructure. The InteGreat Series is also designed to work with other Wiremold products, such as Wiremold OFR Series Overfloor Raceway and Wiremold Poke-Thru Devices. InteGreat Products organize, protect and hide “the last meter” of cabling, as well as providing ready accessibility for future technology upgrades.

InteGreat A/V Table Box has a stylish design that fits into any meeting space. It provides power, communication and A/V connectivity, and can be combined with InteGreat Cable Retractors for excellent cable management.

FEATURES & BENEFITS

- **InteGreat products promote system integrity.** InteGreat Products are specifically designed to work together. This ensures cable organization and protection from the point-of-use to the building infrastructure. This system integrity also shortens the time needed for technology upgrades.
- **Attractive design.** InteGreat table boxes have a brushed anodized finish that is available in either black or aluminum colors to match any room decor.
- **Multi-service integration protection.** InteGreat products accept power, A/V and communication services, while keeping cords and cables neat and organized. This protects your cabling, while creating a clean, organized meeting space.
- **Ultimate flexibility.** InteGreat products are adaptable to most meeting room tables, allowing the same parts to be used regardless of table or room dimensions.
- **Easy to maintain.** InteGreat products easily accept future upgrades, minimizing disruptions and down time.
- **Ease of installation.** Simple and straight-forward, InteGreat products install quickly so that downtime is minimal.
- **Safety.** InteGreat A/V Table Boxes have gasketed receptacles that protect against spills and meet US and Canadian safety standards.
- **cETLus Listed.** InteGreat A/V Table Boxes are ETL listed to meet US and Canadian safety standards.

INTEGRATED SOLUTIONS STRATEGY

InteGreat™ A/V Table Boxes with InteGreat Cable Retractors keep cables protected and organized. Combine this with other InteGreat products like InteGreat Under Table cable Management and InteGreat Transition Channel. These InteGreat Series products were specifically designed to work and fit together, offering complete end-to-end cable management solutions.

A AVIP Device Plates

Audio video interface plates and devices mounted in InteGreat A/V Table Box.

B InteGreat A/V Table Box

Provides unique work surface solution to deliver devices access on the table surface and is fed from InteGreat UTCM system.

C InteGreat Cable Retractors

Protects and organizes cabling while keeping table surface free of excess cabling.

D InteGreat Under Table Cable Management

Provides clean cable management for power, communication and A/V cables on the underside of the table.

E InteGreat Transition Channel

Connects with Poke-Thru devices or OFR Series Overfloor Raceway to transition cables from the floor to the underside of the table.

F OFR Series Overfloor Raceway

Feeds power, communication and A/V cabling from wall to the underside of meeting table when feeding through the floor is not possible.

G Evolution™ Series A/V Wall Box

Provides power, communication and A/V services to flat screen monitors, while allowing the monitor to sit flush against the wall.

H Evolution™ Series Ceiling Box

Fully finished enclosure designed to manage and store A/V and IT equipment in an air handling plenum space above a false ceiling.

InteGreat A/V Table Boxes

InteGreat A/V Table Boxes are an elegant solution for extending power, communication and A/V to the meeting presenter's point-of use. InteGreat A/V Table Boxes provide the depth to mount devices, especially A/V devices, below the table top. It has attractive finishes that can match any room décor. Combine it with other InteGreat products, such as InteGreat Retractors, InteGreat Under Table Cable Management and InteGreat Transition Channel for a comprehensive solution to managing and delivering power, communication and A/V connectivity for conference rooms.

InteGreat A/V Table Boxes provide power, communication and A/V connectivity at the point-of-use.

A/V TABLE BOX

Part No.

Description/Specifications

16231
16232

A/V Table Box

Table Box with 12' (3.66m) cord. Unit comes with two (2) 15A receptacles in the recessed compartments and one 15A receptacle on the underside of the box. Hardware bag includes Wiremold® AVIP Series Cable Kit with eight (8) openings. Can accept up to five (5) Legrand AVIP device plates or five (5) Extron® Electronics MAAP device plates. (Sold separately.) Available in black (16231) or aluminum (16232) finish.

InteGreat A/V Table Boxes accept Wiremold AVIP Series and Extron® Electronics MAAP Device Plates.

A Wiremold AVIP Series Cable Kit is supplied with every InteGreat A/V Table Box.

Convenience receptacle on the underside of the box is ideal for powering small devices under the table.

InteGreat Cable Retractors

InteGreat Cable Retractors attach easily to InteGreat A/V Table Boxes, or can be mounted directly to the underside of conference room tables. InteGreat Cable Retractors have 5' [1.52m] of retractable cable that allows users to have easy access to A/V and communication services. With a simple pull, the cable locks into place or retracts back into the table box, keeping the conference room table neat and organized.

InteGreat Cable Retractors protect cables while keeping them neat and organized.

INTEGREAT CABLE RETRACTORS

Part No.	Description/Specifications
16236 	Cable Retractor with Category 6 cable Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the 16237. Loaded with 12' (3.66m) of Cat6A cable that extends out 5' (1.52m) from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side.
16233 	Cable Retractor with VGA cable Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the 16237. Loaded with 12' (3.66m) of VGA VESA cable that extends out 5' (1.52m) from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side.
16235 	Cable Retractor with High Speed HDMI with Ethernet cable Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the 16237. Loaded with 12' (3.66m) of HDMI with Ethernet cable that extends out 5' (1.52m) from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side. Input side has mounting tab that allows installer to cable tie HDMI to the retractor to minimize chances of a loose connection.

INTEGRAT CABLE RETRACTORS (continued)

Part No.

Description/Specifications

16234

Cable Retractor with 3.5mm Audio cable

Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the 16237. Loaded with 12' (3.66m) of audio cable that extends out 5' (1.52m) from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side.

16237

Cable Retractor Horizontal Mounting Bracket

Allows retractor to mount horizontally under a conference room table, so cable can be accessed through a table grommet. Multiple retractors can be mounted to each other by attaching the 16237 mounting brackets to each other.

InteGreat Under Table Cable Management

InteGreat Under Table Cable Management provides clean cable management for power, communication and A/V cables on the horizontal underside of the table. The simple hinge mechanism allows for easy access for future technology upgrades. InteGreat Under Table Cable Management mates with the InteGreat Transition Channel for a true cable management solution.

Manage cords and cables under the table with easy to order, easy to install, easy to maintain InteGreat Cable Management.

INTEGREAT CABLE MANAGEMENT	
Part No.	Description/Specifications
16238	Under Table Cable Management Kit Consists of a 5' (1.524mm) length of divided base, 5' (1.524mm) length of mounting hinge rail and four (4) latching clips. Black, nonmetallic construction.
KIT CONTENTS:  Base  Hinge Rail  Latching Clips	

InteGreat Transition Channel

InteGreat Transition Channel continues the cable management and protection from the underside of the table to the floor, where cables can gain access to the building infrastructure. The Transition Channel fits directly into InteGreat Under Table Cable Management on the underside of the table and mates with Wiremold® Poke-Thru Devices or OFR Series Overfloor Raceway for a smooth transition to the building infrastructure.

InteGreat Transition Channel provides a protected pathway for cables to the building infrastructure. It is designed to work with Wiremold® Poke-Thru Devices and OFR Series Raceway.

INTEGRATE TRANSITION CHANNEL	
Part No.	Description/Specifications
16239	Transition Channel Kit Consists of aluminum center spine with steel mounting plate and four (4) screws, black aluminum side channels, black nonmetallic bottom boot and two (2) black nonmetallic transition covers.

InteGreat Transition Channel mates with InteGreat Under Table Cable Management for superior management of cords and cables.
