EDS-MD

Wired IoT Gateway for Medical Devices

Certified Multi-Port Wired IoT Gateway for Medical Devices

- UL and IEC-60601 compliance provides galvanic port isolation to protect connected medical devices
- Securely connect any medical device with a serial interface to the network using enterprise-level SSL and SSH
- Simple set up and configuration with industry-standard management tools including Web, CLI, XML powered by MACH10
- Gigabit Ethernet offers increased bandwidth for higher performance
- Available with 4, 8 or 16 ports
