

mikromedia HMI Breakout Board

PID: MIKROE-2300

The **mikromedia HMI breakout** board is a simple accessory that conveniently enables developers to access pins from any of the 18 mikromedia HMI smart display boards.

Specifications

Type	Adapter
Architecture	FT90x (32-bit)
Silicon Vendor	FTDI
Display type	mikromedia HMI

Mikroe produces entire development toolchains for all major microcontroller architectures.
Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
