

Hexiwear Docking Station

PID: MIKROE-2094

Hexiwear Docking Station is, as its name describe, a connection and expansion board for Hexiwear development platform. This board enables you to add functionality to your system and connect over 800 Click boards to your Hexiwear device.

The board has 50 pin male connector for easily adding Hexiwaer development board. It also features JTAG connector, OpenSDA control interface, Micro USB port, LED and mikroSD card slot.

All this features enables you that with Hexiwear Docking Stations expand your Hexiwear stationary application to the maximum. If you are interested in portable version please check our [Hexiwear Battery Pack](#).

Specifications

Type	IoT - Wearable
Key Features	JTAG connector, OpenSDA control interface, Micro USB port, LED and mikroSD card slot
Programming	USB
Silicon Vendor	NXP
mikroBUS No.	3
Supply Voltage	USB
Category	IoT - Wearable

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
