| Product Overview                    |                                                                                                                                                                   |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ratings & Reviews                   |                                                                                                                                                                   |
| MGE Galaxy 3000 Features & Benefits |                                                                                                                                                                   |
| Serviceability                      |                                                                                                                                                                   |
| Multiple levels of service          | With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.  |
| 7x24 telephone technical support    | Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you need is there when you need it. |
| Front-access servicing              | Simplifies installation and UPS maintenance while minimizing space requirements.                                                                                  |
| Availability                        |                                                                                                                                                                   |
| SmartSlot                           | Customize UPS capabilities with management cards.                                                                                                                 |
| Network manageable                  | Provides remote power management of the UPS over the network.                                                                                                     |
| Automatic internal bypass           | Supplies utility power to the connected loads in the event of a UPS power overload or fault.                                                                      |
| Parallel-redundant capable          | Power the connected equipment with multiple uninterruptible power supplies to increase system redundancy                                                          |
| Dual mains input                    | Increases availability by allowing the UPS to be connected to two separate power sources.                                                                         |
| Total Cost of Ownership             |                                                                                                                                                                   |
| Input power factor correction       | Minimizes installation costs by enabling the use of smaller generators and cabling.                                                                               |
| Fully-rated power kVA equals kW     | Reduces cost by eliminating the need for an oversized UPS for Power Factor Corrected (PFC) loads.                                                                 |
