

Sensirion Product Launch Package: **Sensirion Evaluation Kit-Toolbox**

1. General Information

The SEK-Toolbox is designed for a quick, easy and cost-efficient evaluation of Sensirion's environmental sensors. This facilitates to evaluate sensors and develop innovative sensor applications.

Customize your own evaluation kit:

1. First buy a **SEK-SensorBridge**.*
2. Then choose which environmental parameters you want to measure and order the respective **SEK-Evaluation-Sensors**.
3. Finally, just download our SEK-Control Center software and you are ready to start evaluating.

**For the SEK-SPS30 no SEK-SensorBridge is needed*

Official release date, DOS: 13.05.2019 (in best case date of arrival)
