Intrinsyc's Open-Q™ 660 μSOM Development Kit is a cost-effective, high performance, exposed board platform powered by the advanced Qualcomm® Snapdragon™ SDA660 processor on our ultra-small "micro SOM" form-factor.

The Development Kit is ideal for evaluation of the [Open-Q™ 660 μSOM](#) as well as jump-starting development of advanced, intelligent, embedded and IoT products. It supports our optional Open-Q™ LCD / touch panel, optional 13MP camera module, and has many GPIO, sensor, audio, and other expansion interfaces.

LCD & Camera sold separately
